

Help Sheet

Safeguarding Training by Position

Persons who wish to be qualified in Safeguarding for a particular position in an organization will be assigned video courses appropriate to that position. Depending upon their position, they may also be required to take Live Engagement training.

- All required video courses used for Safeguarding training are posted on the Praesidium Academy website. These video courses may be taken in Spanish or English. All Safeguarding applicants who are approved for training will receive an email with instructions for accessing the required videos.
- Live Engagement training, when required, must be taken either in-person or on Zoom after all required video course have been completed. When required, Safeguarding Applicants will receive an email invitation to sign up for a Live Engagement training.
- All Safeguarding training for a position must be renewed every five (5) years.

In addition to the assigned video courses, Praesidium Academy hosts many other online video courses. The Safeguarding Office has recommended some of these additional videos by position. The videos are **not required** to meet Safeguarding qualifications, and the **Safeguarding Records System (SRS) does not track the completion of these videos or count them toward training requirements**, even if an organization chooses to require an employee or volunteer to take a recommended video course.

Below are the training requirements by position, along with renewal requirements, and a list of recommended video courses for additional training.
